

## What to do if you find **suspected drugs** on property?

**DO NOT** handle, touch, pick up, or take possession of any suspected drugs.

Find a **Security Officer** or contact **Security Control** at ext. 1619 immediately to respond and take control of the situation.

If Security is not immediately available, and time is a factor, **Nitrile Exam Gloves** are to be used at all times. The gloves are located behind the counter of the **Casino's Main Entrance** in Small, Medium and Large sizes. In these instances, contact Security soon after to take possession of the suspected drugs.

### How to safely remove used gloves?

Maintain an awareness for possible opioid exposure in **all situations** where suspected drugs may be involved.
